EVAPO-RUST®

EVAPO-RUST REMOVES RUST 100%

EVAPO-RUST® is an amazing patent pending rust REMOVER which is utilized by the U.S. Army, U.S. Navy, U.S. Air Force, FBI, NATO, Government Contractors, Engine Builders, Auto Enthusiasts, Gunsmiths, Forensic Labs, OEM's, Farmers, Antique Restorers and more.

TYPICAL PROPERTIES:

pH	6 - 7	Water Solubility	Complete
Color	Pale to dark yellow	VOC's	none known
Specific Gravity	1.04	HAP's	none
Spent S.G.	1.08	Evaporation Rate	Same as water
Operating Temp.	60° to 200° F.	Boiling Point	>200° F.
Flash Point	None

Before & After Immersion in Evapo-Rust.

EVAPO-RUST IS SAFE AND EASY TO USE

Not a primary eye irritant	SCAQMD Certified	No Acids
Not a skin irritant	No HAP's	No Caustics
Non-Toxic dermally or orally	No Solvents	Non-Corrosive
Non-Hazardous	Biodegradable	Non-Flammable

EVAPO-RUST® is non-hazardous and ships U.S. Postal, UPS or regular freight. EVAPO-RUST® is designed as a soak (dip) and will remove even deep rust on all types of mild steel and iron. Fully immerse the rusted item in EVAPO-RUST®; no scrubbing necessary. Soak times will vary from 30 minutes to 24 hours depending on severity of rust, type of steel, and bath temperature. Because EVAPO-RUST® is water based, the effectiveness will slow down as temperature decreases below 60° F and increase as temperature increases. EVAPO-RUST® works through selective chelation at a pH of 6.1 to 7.0 (neutral) and does not require any special equipment or personal protective wear. It is non-corrosive to steel and does not harm brass, copper, aluminum, gold, lead, titanium, steel, cast iron, chrome solder points, vinyl, plastic, rubber, silicone, glass, cork, or wood (not for use with magnesium). EVAPO-RUST® has an indefinite shelf life and can be used over and over until it absolutely stops working. On average, one gallon de-rusts up to 300 pounds of light to moderately rusted steel.

WEAPONS/COATINGS

EVAPO-RUST® is perfect for removing weapon finishes such as Bluing, Parkerizing, Zinc Phosphate, and Browning. Other coatings such as anodizing, powder coating, chrome, nickel, paint, and most other coatings will not be removed as long as they are still adhered to the surface and do not contain oxides. EVAPO-RUST® is highly recommended by the NRA gunsmithing school and is utilized by FBI, CIA, NATO and other law enforcement and forensics agencies.

THE ONLY THING YOU HAVE TO LOSE IS RUST

AWARD - Top 100 Inventions of the Year

AWARD - Outstanding Technology in Industrial Cleaning

NOMINATED - The Presidential Green Chemistry Challenge Award

Evapo-Rust has also been the focus of many articles from trade magazine such as Auto Restorer, Street Rodder, Skinned Knuckles, Clean Tech, Muscle Car Enthusiast, Hemmings Muscle Machines, Popular Mechanics, and many more.
