*Ask Us About  
Recycling Your Cleaners.*

**Remove Ink, Grease, Oil and any other organic deposits from:**

**BLANKETS, ROLLERS, INK TRAYS, WATER PANS, INK CANISTERS, PIPE ROLLERS, PRESS EXTERIORS, GENERAL CLEANING, TOOLS AND MORE...**

## Printers Consider this...

**BioForce Services** is a leader in new product development for the printing industry with the most effective Press Cleaners available.

**Indoor air quality** and employee health are two critical factors in the development of these cleaners.

**We** have created a line of cleaners that are safer to use while meeting and exceeding Government regulations on chemical usage and employee safety.

**By** improving the functionality of cleaners used in the printing industry, the benefits to the operator go well beyond Indoor Air Quality and Employee Health. The ease of use can dramatically alter physical demands required to clean in most applications.

**Our** new family of Cleaners contain no Chlorinated Solvents or Hazardous Aromatic Solvents.

**Press Pro Cleaners** can be used on any surface that is water rinse compatible.

*Please contact your Press Pro Representative with any question you may have.*

*Thank You*
